| | TERMS OF COMMITMENT |
|---|---|
| ☐ | **B1. EV Parking and Charging Infrastructure** |
| | **Tier 1 or 2, Site Plan**<br>**Low-Rise Residential and Mid- to High-Rise Residential** |
| | The owner commits to monitor usage data for the infrastructure for a period of 12 months after occupancy and report on usage rates and any operational issues as part of the post-occupancy review. |
| ☐ | **N3. Water Efficiency** |
| | **Tier 1, Site Plan**<br>**Low-Rise Residential; Mid- to High-Rise Residential; Industrial, Commercial, and Institutional** |
| | The owner commits to install WaterSense certified fixtures for toilets, bathroom sink faucets, showerheads, flushing urinals, and flushometer-valve toilets. After the completion of the project, the owner shall submit confirmation. |
| ☐ | **E2. GHG Emissions Reduction** |
| | **Tier 1, 2, or 3, Site Plan**<br>**Low-Rise Residential; Mid- to High-Rise Residential; Industrial, Commercial, and Institutional** |
| | The owner commits and consents, for 1 year after occupancy, to share building performance data with the municipality. If the owner changes before 1 year after occupancy, the owner shall use reasonable efforts to notify the new owner of the commitment and the request to assume it. |
| ☐ | **E3. Airtightness** |
| | **Tier 1, Site Plan**<br>**Mid- to High-Rise Residential; Industrial, Commercial, and Institutional** |
| | The owner commits to:<br>• Conduct a guarded test<br>• Note the third-party testing agency<br>• Follow ASTM E3158-18<br>• Agree to submit the final air leakage testing report<br>• Consent to sharing this data with the condo corporation, if applicable, and WR Community Energy and the relevant municipality priority to occupancy |

| | TERMS OF COMMITMENT |
|---|---|
| | Through the guarded test, quantify the building envelope air leakage rate. The testing target is 2.0 L/s m2 @75Pa (0.4 cfm/ft2 @75Pa). Guarded testing shall include testing a sampling of floors including: podium, base of tower, top of tower, unique floors, and 2 contiguous floors for every 10 floors (to capture slab bypass condition). For more details, please refer to the Resources and Details section below. After the completion of the project, consent to sharing this data with the condominium corporation, if applicable. |
| | **Tier 2, Site Plan**<br>**Mid- to High-Rise Residential; Industrial, Commercial, and Institutional** |
| | Consent to sharing this data with the condo corporation, if applicable, and WR Community Energy and the relevant municipality priority to occupancy. |
| ☐ | **E4. Local Energy Generation and Solar Readiness** |
| | **Tier 2, Draft Plan of Subdivision**<br>**Low-Rise Residential; Mid- to High-Rise Residential; Industrial, Commercial, and Institutional** |
| | The owner commits to share relevant reports or studies with the condominium board, where applicable, in order to understand feasibility and potential future actions. |

By signing this Reporting Commitment Form, the owner confirms their commitment to undertake the listed actions, provide the supporting documentation where applicable, and work collaboratively with WR Community Energy and participating municipalities to support continued collaboration and learning from HPDS objectives.
